

## How GATE Petroleum is providing new options and generating savings with TeleMedicine

### We Keep Demonstrating Incredible Value

#### How GATE Petroleum's investment in telehealth is really paying off

Since GATE Petroleum launched telehealth benefits for its 3,000+ employees, more than 19 percent have used the service, yielding the company a **56 percent ROI**.

#### Why partner with Health Alliance Network?

For some companies, especially those that are self-insured, the rising cost of health insurance coverage is as much of a battle as attracting and retaining great talent. Health Alliance Network works with our clients to develop telehealth solutions that cut healthcare costs and give your current and potential employees unique benefits.

1. Reduces healthcare costs, especially for self-insured employers
2. Lower absenteeism and higher productivity
3. Unique benefits that make your company an attractive place to work Quick access to around-the-clock urgent care from home, work or anywhere
4. Full marketing support to onboard employees and keep them using Health Alliance Network products and services
5. More Engagement from us = Less Downtime for your employees
6. Branded APP as your Company's Benefits Navigator
