

**We Believe
Everyone Deserves
Affordable and Accessible
Healthcare**

Our Goal is Simple

There are 38,000,000 million people employed by the restaurant, bar and hospitality business in America.

Sadly only about 8% of them have health insurance.

Our Goal is Simple

Get everyone affordable and accessible healthcare.

Everyone knows they need healthcare, but traditional health insurance companies have made things so complicated and so expensive you just keep putting it on the bottom of your list.

Health Alliance Network is changing that with a nationwide network of doctors and therapists designed to blanket you with the healthcare you need, when and where you need it.

So put quality healthcare back on the top of your list with Health Alliance Network

Healthcare made Simple.

For Everyone.
